CANA WAREHOUSE MANAGEMENT SERVICES

Start with the CANA front-end warehouse assessment

- A full scope, physical, on-site assessment backed by our years of industry experience.
 It's all about:
 - A roll up the sleeves, task-organized, tailored approach
 - Prioritizing your needs
 - Using and improving existing physical processes and recommending new ones
- 2

Add CANA's mature analytics, using data to make your business *run* better

- Taking a people and process first approach
- Configuring and customizing a web-based automation solution for you
- Creating a scalable and tailored solution <u>without</u> large digital infrastructure investments
- 3

Prepare your warehouse to integrate software built to your needs

 Providing an affordable, tailored, cloud-based software solution
